

Where Design Pivots

WHERE MOTION MEETS
MINIMALISM

Architectural Elegance. Effortless Motion.

Grounded in the foundations of modern architecture, a pivot door accentuates clean lines and elegant motion. Pivot doors need less clearance space and offer a unique aesthetic to elevate any application.

PC350 Pivot Door Systems

A CENTREPIECE OF DESIGN.

Pivot Doors offer an alternative to traditional swing operation by rotating on precision pivot hardware, eliminating the need for a side-hinged jamb and reducing clearance requirements.

KEY APPLICATIONS AND BENEFITS

- Free swing and self-closing options available
- Hardware options include patch fittings, hold open option available, handles (lever and ladder pulls), door closers (incorporated into patch fittings), locks
- PC350 Pivot frameless glass swing doors integrate into a straight or curved configurations
- Available in 90-degree swing with rested stop/or 180-degree swing with door pull
- Glazing compatibilities include 10mm (3/8"), 12mm (1/2")
- Glazing types include clear tempered, low iron and acid etch
- Door pulls and patch fittings can be finished to match any custom or standard offerings
