

Reimagine Your Space

CONTEMPORARY DESIGN.
SEAMLESS FLEXIBILITY.
INSPIRED ENVIRONMENTS

Designed for Dynamic Spaces. Built for Collaboration

Introducing the PC350 VISTA Telescopic Solution, a contemporary approach to space division that transforms interiors through movement, transparency, and adaptability.

Engineered to maximize flexibility while maintaining architectural elegance, VISTA creates environments that effortlessly transition between open collaboration and private functionality. Whether in corporate offices, educational facilities, hospitality venues, or multipurpose spaces, VISTA empowers designers to create environments that evolve with changing needs.

Adaptable & Flexible.

Designed to move with your space.

VISTA adds a multifunctional dimension to any environment, allowing spaces to be quickly reconfigured without compromising aesthetics.

BENEFITS

- Maximizes daylight and visual connectivity
- Creates flexible meeting and collaboration spaces
- Enhances employee wellbeing through open, lightfilled environments
- Supports changing workplace and social gathering requirements
- Serves as an architectural focal point within the space

Effortless Operation. Performance in Motion.

Every VISTA Telescopic Solution is engineered for smooth, intuitive operation. The advanced pulley system combined with softclose and softopen technology delivers controlled movement and a premium user experience.

FEATURES

- Soft-close and soft-open hardware
- Smooth, user friendly operation
- Durable system designed for daily use
- Trackless floor design for unobstructed transitions
- Clean, elevated architectural appearance

Tailored to Your Vision

VISTA offers a variety of panel and hardware configurations to complement any interior design.
